RE: INVITATION AND REQUEST FOR DISSEMINATION OF THE INTERNATIONAL TRAINING-SEMINAR ON ARTIFICIAL INTELLIGENCE, RESEARCH AND INNOVATIONS

Dear Superintendent Aposin:

The Borres Youth Leadership Institute, Inc. or BYLI, in its quest to advance research capabilities and professional development, will be organizing an **International Training-Seminar on Artificial Intelligence, Research and Innovations in partnership with the Asian Center for Education, Research and Training (ACERT) on 13 – 15 June 2024 at Aura Condotel, Lawaan, Roxas City, Capiz, Philippines.** Attached is the **INVITATION KIT** which contains all the details of the training-seminar.

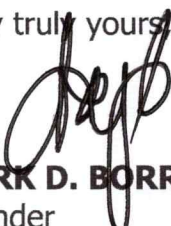

The training-seminar aims to prepare educators to become capable and equipped to meet the global demands of education, explore innovative and practical fields in research and development for the improvement of quality of life through education and provide an avenue for researchers to share findings of their researches.

In view thereof, BYLI would like to request that this invitation be disseminated to all public elementary and secondary schools in the Division of Capiz.

Should you have questions and clarifications you may contact Dr. Crizamae Untayao at 0930-425-4502 or Mr. John Paul De Juan at 0998-547-8272 or email byli.profdevt@gmail.com

Thank you.

Very truly yours,

MARK D. BORRES

INTERNATIONAL TRAINING-SEMINAR ON ARTIFICIAL INTELLIGENCE, RESEARCH AND INNOVATIONS

13-15 June 2024

Aura Hotel, Lawaan, Roxas City, Capiz, Philippines

PARTNER INSTITUTION

Asian Center for Education, Research and Training (ACERT)

THEME

"Transforming Education through Artificial Intelligence, Research and Innovations"

RATIONALE

The right to education and lifelong learning is at the very heart of the 2030 Agenda for Sustainable Development because education, knowledge and learning are central to the dignity, growth and development of the individual (UN Policy Agenda, 2023). For many years, government institutions and private sectors have placed priority agenda to education in order to achieve quality education. Increase in budget allocation, review of curriculum, construction of infrastructure projects and extension of educational grants are just some of the many efforts to level up the system of education. However, achieving quality education is beset with challenges. One of which is the capacity of educators and teachers to effectively transmit learning to students for lack of necessary knowledge, skills and competencies in developing transformative research output, to create innovative solutions and strategies in teaching and to adopt to the ever-changing and evolving world because of technology.

"Teacher training institutes should impact training of our nation's teachers in a manner that encourages them to support the holistic development of the child and to continuously refine their own skills to create the best possible learning environments for our children."

-Shaheen Mistri

According to the United Nations Educational, Scientific and Cultural Organization or UNESCO, Artificial Intelligence or AI, for instance, has the potential to address some of the biggest challenges in education today, innovate teaching and learning practices, and accelerate progress towards Sustainable Development Goal number 4 which is quality education. Likewise, research can help the teachers find solutions to particular problems arising in their classroom or school and reinforce professional learning of knowledge, skills and understanding. Moreover, innovative teaching methods can help enhance student learning and improve student motivation, engagement and critical thinking skills.

It is in this premise that BYLI through its partner, the Asian Center for Education, Research and Training (ACERT), offer to provide an International Training-Seminar on Artificial Intelligence, Research and Innovation.
