

Republic of the Philippines
Department of Education
Region VI – Western Visayas
SCHOOLS DIVISION OF CAPIZ

Division Advisory No. 080, s. 2024
June 13, 2024

In compliance with DepEd Order (DO) No. 8, s. 2013
this advisory is issued not for endorsement per DO 28, s. 2001,
but only for the information of DepEd SDO Capiz officials,
personnel/staff, as well as the concerned public.
(Visit www.depedcapiz.ph)

Attached is a letter from Mark Vincent Java, VP for External Affairs,
Science Magic Philippines regarding the **“The Magic of Science Show”**.

Participation to this activity is voluntary and subject to the no-
disruption of classes policy per **DepEd Order No. 09, s. 2005** (*Instituting
Measures to Increase Engaged Time-on-Task and Ensuring Compliance
Therewith*), and no collection policy per **DepEd Order No. 09, s. 2008**
(*Implementation of No Collection Policy in All Public Elementary and Secondary
Schools*).

Schools Division Superintendent
Division of Capiz

The Magic of Science Show

"Science magic" refers to science demonstrations or experiments that seem magical or mysterious due to their surprising or seemingly impossible outcomes. These demonstrations, grounded in principles of chemistry, physics, or biology, are designed to engage and educate audiences about scientific concepts in an entertaining and enjoyable manner. Science magic tricks often utilize optical illusions, chemical reactions, physics phenomena, or other scientific principles to create the illusion of magic. These demonstrations are effective in educational settings, such as classrooms or science fairs, to ignite interest and curiosity in science and to make complex scientific concepts more accessible and engaging. Although science magic tricks may seem to defy the laws of nature at first glance, they are based on scientific principles and can be explained through careful observation, critical thinking, and an understanding of the underlying science. By blending the wonder of magic with scientific rigor, science magic serves as a powerful tool to inspire interest in the natural world and promote scientific literacy.

Scimaghils' Magic of Science Show has performed to more than 1000 schools all over the country. We have performed in Science camps and the Regional Scilympics in 2016.

In relation to this, I would like to request from your good office to allow the conduct of the Magic of Science Show in private and public schools in your Division.

Thank you and more power!

Sincerely yours,

Mark Vincent Java
VP for External Affairs
Science Magic Philippines

Advantages

of having the Magic of Science Show

1. The show provides effective visual illustrations of science concepts, thus children can understand the concepts better.
2. Since it is a live performance, children are more involved and they participate more actively. The show lasts for an hour.
3. Magic of Science is presented in a very creative manner. It encourages artistic expression and creative thinking.
4. We provide very interesting trivia about the lives of famous scientists and inventors.
5. Teachers can get some ideas on how to present science topics other than their usual classroom/ laboratory presentation.
6. The show is a good way to open or end any science celebration because of its festive nature.
7. It is a good way for the school's science club to raise fund. 20% of the total revenue will go to the school's Science Club.
8. Our registration fee is affordable and is purely voluntary.
9. It is convenient for the schools since we will be providing for everything except the venue.
10. It is interesting, thus, easy to promote. Children are excited to watch the show, thus, objections are kept at the minimum.
11. We have an excellent track record in producing quality educational entertainment for children since 2013. We are often invited to perform in Science Camps and Scilympics.
12. We have been to more than a thousand shows all over the country covering Divisions of Aklan, Antique, Negros Occidental, Iloilo City, Iloilo Province, Guimaras, Capiz, Bacolod City, Cebu City, Cebu Province, Naga City, Danao City, Lapu-Lapu City, Tacurong City, Koronadal City, Gen. Santos City, Davao City, San Pablo City, Lucena City, Quezon City, Quezon Province and Batangas Province.

What Science Educators Say About our Show

Thank you for sharing your gift of magic to 26 schools of the Division of Negros Occidental! More thank you for showing them that learning science is fun!

Dannie Clark Uguil- EPS (Science)
Division Negros Occidental

"Science-driven, explicitly amazing tricks.."

Johna P. Mana-ay- Science Coordinator,
Mina National High School

"Thank you for the experience, see you again next year.."

Jessica Capampangan- Science Coordinator,
Nangka National High School,
Balamban, Cebu

"This is one of the avenues in enhancing student's knowledge in science in a more interesting and ingenious manner."

Dr. Mary Cherry Lynn Tabernilla- EPS (Science)
Division of Aklan Province

"Thank you for bringing happiness to our students"

Malee Batoy- District Coordinator, Malay and
Boracay District

"Magic of Science makes science fun and interesting!"

Mr. Ryan Catilo- District Science Coordinator,
Janiuay Iloilo

MAGIC OF SCIENCE

SCIENCE HAS NEVER BEEN THIS FUN!

EXPLORE THE FASCINATING
WORLD OF SCIENCE
BY DISCOVERING SCIENTIFIC
REALITIES BEHIND MAGIC!
