Date: SEP 18 2024

Dear Secretary Angara:

Greetings!

The Department of Science and Technology - Science Education Institute (DOST-SEI) is mandated to accelerate the development of science and technology (S&T) human resources in the country. One of our thrusts is the promotion of science, technology, engineering, and mathematics (STEM) as a field of study and a career through implementing programs and projects catering to the youth.

One of these programs is the ~~imake.wemake.create.innovate.collaborate~~ competition that aims to unleash the creativity of young Filipinos, enabling them to discover their potentials while learning how to use innovation in achieving a particular purpose. Through this competition, participants will also develop competencies in research, communication, critical and analytical thinking, and engineering, and understand the value of risk and failure analysis. More than anything, it is founded on the values associated with creating, collaborating, and fostering the culture of innovation using "accessible technology" which enables the youth to provide solutions to current problems or to improve the overall condition of a particular community.

To this end, the DOST-SEI is launching again another cycle of its long-standing innovation competition. The ~~"8th imake.wemake.create.innovate.collaborate"~~ calls for innovative project proposals from senior high school students that capture the purpose, the process, and the specific product that the students wish to create. The students are then provided with the resources to build and test their projects after extensive training and collaboration with their team members and mentors.

In light of this, we would like to seek your support for the said program of the DOST - SEI through the issuance of a DepEd Memorandum enjoining public high school students to participate in the said competition.

The detailed mechanics of the competition is accessible online through these links:

- <https://bit.ly/8thIMWM>
- <https://tinyurl.com/eightimwm>

Attached is the draft Memorandum for your consideration.

Thank you and we hope for your support in developing a culture of science, excellence, and innovation among the youth.

Very truly yours,

[Signature]

RENATO U. SOLIDUM, JR.
Secretary
